

Isabella Ray

**SUO GENERAL
ELECTION 2023**

Vice-President Campus Life Candidate

“I am a passionate, caring, and innovative second year student at UBCO, keen on pursuing opportunities to connect with the student community, contribute towards student life enrichment and collaborate with my peers.”

I am a versatile individual experienced in organizing fundraising events and participating in them as well, such as giving a speech promoting and persuading more individuals to join Young Life. As club president and student leader for two years I fostered strong relationships and promoted a healthy work- life balance. I have a good track record in academics and a passion for continuous learning. Being part of Peer Assistant Listeners who promoted mental health taught me to be a reliable team player. A personable attitude and a positive communication style enabled me to resolve conflicts, and promote respect and trust.

“The wilderness must be explored” - Russel, Up (Pixar movie). A great takeaway from this movie and a quote I live by. Nature is a big part of my personality. Hikes, cliff jumping, skiing and wake surfing give me an incomparable adrenaline rush! But also keep me grounded. My promise as the next Vice-President Campus Life, is to offer experiences that deliver such feelings to all UBCO students. Furthermore, I understand the importance of parties, social gatherings, and recreational activities for University students. Therefore, I plan to host events that are creative, inclusive and most importantly FUN!
