Hey everyone! I'm Uday Juneja, a first-year MBA+BBA student in Management, and I'm running for Director-at-Large because I want to be the voice for students and push for real changes that actually make life at UBCO better.

Let's be honest—campus food? It could be way better. It's expensive, lacks variety, and doesn't always meet our needs. We deserve fresh, affordable, and quality meals, and I want to fight for that. But my vision goes beyond just food.

Mental health support should be easier to access—no one should have to wait weeks for help. I'll push for more counselling availability, peer support, and student wellness initiatives. We also pay a lot in student fees, but where does that money go? I'll work for more transparency and fairer costs so students actually benefit from what they pay for.

On top of that, we need better study spaces, more seating, and events that bring students together. UBCO should feel like a place where we thrive, not just survive.

If you want someone who will listen, take action, and make your voice heard, vote Uday Juneja for Director-at-Large. Let's make UBCO better, together.

Have concerns? Let's talk!
