

Abdullah Naseer Ud Din

**SUO GENERAL
ELECTION 2023**

**Faculty of Arts and Social Sciences
Representative Candidate**

I'm a second-year student from Pakistan planning to major in Politics, Philosophy, and Economics. As an international student, I longed for a sense of community when I came to UBCO. Due to my passion for the sport, I joined soccer clubs. Because I love reading, I visited many book clubs. However, I never felt like I was part of a community that tied to my academics. Whenever I looked for any sort of solidarity amongst the members of the Faculty of Arts and Social Sciences, I came up empty-handed. This aspect of the faculty is exactly what I seek to change. With the resources at our disposal, and the initiatives we are allowed to take, the student body of FASS can build a strong collective identity. An identity based on pride for our disciplines. An identity that is fostered by strong academic and co-curricular ties that stretch across the campus. The students of FASS deserve to build stronger connections with their peers. We deserve to have more equitable access to many services provided by the university. We deserve to express ourselves uniquely and proudly. And as your Student Representative, establishing this identity is exactly what I want to work towards.

Platform Points

- Establishing a community that thrives across campus; a community that takes pride in pursuing the humanities and social sciences.
- Creating a livelier environment in the Arts Building by improving food and recreational services.
- Increasing career-related prospects by inviting industry relations to expos specific to FASS.
- Bridging the gap between opportunities available through the university and opportunities being availed by FASS students.
