My name is Georgia Mayhew, and I am a B.A psychology student. This academic year I have participated in various SUO events as a volunteer. I sit on the campaigns committee as a student-at-large, helping organize, facilitate, and promote different campaigns on campus to raise awareness and engage the student body in social and environmental issues. I'm eager to use the skills I've learned and apply them to my position as the voice of the faculty of Arts and Social Sciences. One of my goals for this position is to increase student connection between programs. As faculty representative I will facilitate events and create space for students to get to know each other in a supportive and productive way. I'm passionate about increasing resource accessibility ensuring every student gets the most out of SUO and university resources. Advocating for mental health and inclusion of those with diverse abilities is something that's close to my heart, I believe that everyone deserves to have equal opportunities for growth, development, and success. I'm dedicated to working towards creating a welcoming environment for all students, regardless of background or ability. Whether it's through promoting mental health services, advocating for accessibility in campus facilities, or simply being an ally for those in need, I strive to make a positive impact on the lives of those around me. Our faculty makes up a large portion of our student body, and I believe I have the skills to make our voices heard. Thank you for your vote!

Platform Points

1. Inclusion: My promise to the students of the Faculty of Arts and Social Sciences is to work with the staff and professors to address and accommodate individual requirements for diverse students.

2. Accessibility/Safety: There are so many resources on campus that are underrepresented and not utilized to their full potential. I will work to increase awareness and accessibility for students in my faculty to learn about these resources we have and work to add even more in the future. Further, I believe that safety is a top priority on this campus. In my role, I want to promote the utilization of campus security and safe walk for a safer campus.

3. Connection: I am incredibly passionate about getting to know as many students as possible within our faculty. I will work to increase connection by hosting regular events for the Faculty of Arts and Social Sciences where those in different programs can get to know each other.
