

Sunish Grover

**SUO GENERAL
ELECTION 2023**

**Faculty of Science Student Representative
Candidate**

Hello everyone, my name is Sunish and I'm from Abbotsford BC. I'm currently a 3rd-year science student majoring in biology here at UBCO. I am a transfer student as I transferred to UBCO in my second year. Currently, I plan on pursuing a career in dentistry after completing my undergraduate degree. Being a dentist has appealed to me ever since I was a little kid as I like the hands-on aspect of it. Outside of university and academics I like to go out and explore what the cities of the Okanagan have to offer. I also like to watch and play sports like basketball and hockey in my free time. I have decided to run for the science faculty representative as I want to bring a positive change to the science faculty and address some of the concerns students have.

Platform points:

- I will advocate for any concerns brought by science students to the faculty.
- I will work closely with student associations/ clubs to host more events.
- I will work closely with the science faculty for better scheduling of classes for the upcoming year.
- I will advocate for more mental health resources.
- I will work closely with the science faculty to bring more inclusivity to the students.
