

SUO BY-ELECTION  
2023/2024

Abby Newman

abby\_newman259

My name is Abby Newman and I'm a fourth year Bachelor of Management Co-op student minoring in Psychology, with a focus in Human Resources. I'm passionate about creating inclusive and collaborative environments, in addition to experiential learning opportunities.

I'm best known for my work with the Management Student Association (MSA), serving as VP Student Resources followed by President in my third year. Through the MSA, I've attended several national student leadership conferences, advocated on behalf of the management student body in Faculty Council, and created a variety of initiatives to make the MSA an inclusive and welcoming space. At the end of my presidency, the MSA was awarded Most Outstanding Business Student Association from the Canadian Association of Business Students (CABS).

My SUO experience includes working directly with members to express the needs of student associations while collaborating to host innovative events. I've had the opportunity to create a constitution template that extensively covers the bylaws and policies that apply to course unions. In addition, I was appointed by the board as interim Mgmt. Representative in June, where I've been an active contributor in discussions and events.

Today, I'm the Undergraduate Representative for my Faculty's Dean search, a Teaching Assistant for MGMT 110, VP Charity for CABS and a Student Ambassador for UBC. I enjoy being a part of my community as I aspire to learn from the diversity found within our campus. I'm eager to continue building my portfolio of skills as the next Faculty of Management Representative.

# Abby Newman

## Candidate for Faculty of Management Student Representative

abby\_newman259

- Continue advocating on behalf of management students both on the faculty and community level.
- Embracing the campus diversity to seek new ideas and ensure students feel adequately represented.
- Creating an inclusive environment to ensure students feel welcome within the SUO.
- Supporting management-based student association through guidance and past experiences to ensure their success.
