

Aman Waseem

**SUO GENERAL  
ELECTION 2024**

**Faculty of Science Representative  
Candidate**

Hi everyone, my name is Aman Ullah Waseem, and I am pleased to be participating in this year's SUO elections for the Faculty of Science Representative. I am a first-year science student here at UBC hoping to major in Computer Science. I find myself fit for this position as I have worked closely with student bodies in high school as the Deputy Head Boy.

A

As your faculty representative I aim to be involved and interactive with the student body, the staff, and the admins to voice our concerns towards the SUO. I endeavor to support student body with all the initiatives and events. I plan on working hard to brainstorm some new ideas and new concepts for events and try to make them as entertaining and educating as possible.

Together I believe we can make the next academic year a memorable one for our faculty. If you have any ideas of what I should integrate into my plans hit me up @\_amanwaseem\_ on Instagram.
