

Danial Asif

**SUO GENERAL
ELECTION 2024**

President Candidate

My name is Muhammad Danial Asif, and I am a fourth-year student majoring in computer science. I am thrilled to be running to be your President for the student union.

I have been involved with student governance since my high school days, where I had the honor to serve as the headboy of my school and continued my commitment to serve students into my university years when I served as the VP Campus Life of the SUO.

Beyond student politics, I am also deeply passionate about community service which led me to become the founder of an NGO called Youth Welfare League. I know what it takes to lead and create meaningful experiences and if I get elected as your President, I will strive to make sure that student voices get heard.

Over the years, UBCO has grown, and the issue of limited space on campus has become increasingly prominent. If I get elected, I will champion the cause for the expansion of study spaces and common areas. Additionally, I recognize the critical importance of security concerns on campus and intend to advocate for enhanced security measures on campus, ensuring the safety of our students. Transportation challenges faced by the students at UBCO are undeniable due to the transit system that connects UBCO to the rest of the growing city. I plan on advocating the city and the university for increased public transit routes from campus, specially to areas with large student populations.

Together, let's pave the way.
