

Mohamed Sakr

**SUO GENERAL  
ELECTION 2024**

**Director-at-Large Candidate**

My name is Mohamed Sakr, a dedicated individual driven by a passion for technology, social impact, and community engagement. Honored with the Outstanding International Student Award (OIS), I am currently pursuing a Bachelor of Science in Computer Science with a minor in Data Science. Beyond the academic realm, I have ventured into the heart of community service by volunteering for non-profits in Egypt.

These experiences have not only broadened my perspectives but have instilled in me a profound sense of social responsibility and a commitment to making a positive difference. My academic journey has been further enriched by certifications from Harvard University, a testament to my dedication to continuous learning and staying abreast of cutting-edge developments in the field of technology. As a candidate who seeks to bridge the gap between technology and societal impact, I am excited to contribute my skills and experiences to our vibrant community. If given the opportunity, I aim to foster an inclusive environment where innovation thrives, and every voice is heard. Let's embark on a journey of collaboration and progress together.
