

GURANSH SANDHU

**SUO GENERAL
ELECTION 2026**

Vice-President Campus Life Candidate

I'm Guransh Sandhu, a second-year Computer Science student at UBC Okanagan, and I'm running for VP Campus Life because I want campus to feel like a place you actually want to be.

You might know me as your Jump Start Leader, from different clubs around campus, or even from videos on Instagram. For 2 years, I have served on the Campus Life Board as a Student-at-Large, where I helped organize events and learned what it really takes behind the scenes. I can handle pressure, work with people, and get things done.

I've also shown up as a student. I've been to most of the events on campus because I genuinely care about what students enjoy, what makes people comfortable, and what brings people together. Behind every student is a story and a vision, and I want students to feel seen, heard, and included.

UBCO is full of different communities, and every group deserves space, celebration, and support. As VP Campus Life, I will bring better collaboration with clubs and programming that reflects the real student experience, not just what looks good on paper.

Most importantly, I want there to always be something happening. When you have time between classes, you should be able to pull up, meet people, and enjoy being here.
