NABEEL AHMED

SUO 2026 BY-ELECTION

Director-at-Large Candidate

NABEEL

My name is Nabeel Ahmed, a third-year Bachelor of Computer Science student at UBCO, and I'm excited to be running for Director at Large.

After spending three years in the industry before returning to school, I've experienced both sides of the journey, and trust me, figuring things out isn't always easy! That's exactly why I'm running. I want to help students navigate challenges, learn from my experiences, and make the most of their time at college.

I've always believed that a strong student community starts with getting involved. I founded the Muslim Students' Association (MSA) at Okanagan College, served as its President, organized events, and even collaborated with UBC MSA. I'm also a Finance Officer with IEEE and have volunteered with Islamic Relief Canada and United Way.

My goals are simple: make student services easier to access, bring students together through more club collaborations and networking events, and advocate for career workshops and industry connections that prepare students for life after graduation.

I'm outgoing, love meeting new people, and believe that good leadership starts with listening and taking action. I don't just want to represent students; I want to be someone you can approach, share ideas with, and count on to speak up.

Let's make our student experience better, together!

Thank you for your consideration.
