Why I'm the Right Candidate

I'm the right candidate because I have a proven record of fighting for students' rights and making the SUO more representative and transparent.

As a temporarily appointed Director at Large, I have already:

- Increased transparency by pushing for a more detailed executive monthly reports
- Championed fair, proportional representation by promoting for ranked-choice voting in future SUO elections
- Advocated for students on the Student Association Oversight Committee
- Bridged the SUO and the UBC Okanagan Senate as a direct messenger between them
- Informed students by tabling for Municipal Election Advocacy

If Elected, I Promise to:

- Finish what I started by overhauling the SUO electoral system, so it reflects students' wishes
- Collaborate with the VP Internal to ensure SUO Regulations align with students' needs and interests
- Continue informing the SUO of UBC internal affairs
- Publish regular public reports detailing all my actions
- Work Hard and not take my elected role for granted

My time as a director has shown me how the SUO truly operates, so I can start delivering results on day one rather than spending valuable time learning the ropes.

I am also the only candidate who's in the UBCO Senate and being on a UBC Presidential Advisory Committee, which makes me uniquely positioned to connect the SUO with UBC internal matters.

I have spent over 28 hours last month working for students in the SUO and I'll continue my active work. Thank you for reading, and vote Tim Liao for a better, brighter future!
